Helping you shape
**a successful
future for
your farm**

growing through
innovation

A photograph of two men in a field, overlaid with a large yellow semi-circle. The man on the left is wearing a checkered shirt and glasses, looking down. The man on the right is wearing a light-colored shirt, sunglasses, and a dark vest, looking towards the left. The background shows a field of tall grass and trees under a blue sky.

Agrovista Rural Consultancy

Agrovista Rural Consultancy is a dedicated team of experienced farm and environmental business consultants working across the UK. Working independently and in support of the company's agronomy teams, we deliver strategic business advice and support covering a wide range of subjects.

"Agrovista's Rural Consultancy team has not only helped me gain knowledge but given my business more opportunities to receive subsidies and grants"

John Davies

Rural Consultancy Services

We can advise on the how these could benefit your business:

Sustainable Farming Incentive

- The Sustainable Farming Incentive is an evolving scheme that is being released in stages
- Three to five year agreement lengths, depending on option choice
- Discussions with Agrovista Rural Consultancy will determine the most appropriate actions for your farming business, and how SFI can work alongside existing CSS agreements to optimise revenue potential

Countryside Stewardship

- Agrovista Rural Consultancy can offer support for the ongoing management of your existing CSS Agreements
- These 5-10 year agreements can often work alongside the new SFI scheme and we can discuss options to supplement the income already being generated
- We can assist with woodland agreements for capital and management payments

Capital Grants

- Standalone capital item agreements that can support existing CSS options, or new SFI agreements
- Options for boundaries including hedges, fences and trees
- Farming Equipment and Technology Fund to improve productivity, manage slurry and improve animal health and welfare

Carbon

- Carbon is increasingly being requested as part of audits and contracts including:
 - Carbon audits
 - Carbon footprint action plans
 - Soil sampling
 - Carbon trading

Other services and benefits

Helping you make the right decisions for you and your farm

Soil Management Plan

- Improve soil health
- Reduce run off, soil erosion and flood risk
- Protect historic features
- Improve crop yields
- Grow food sustainably
- Reduce effects on climate change
- Compliant with SFI option SAM1/CSAM1

Nutrient Management Planning

- Increase crop yield and quality
- Minimise usage of artificial fertilisers
