How it works

Multifunctional adjuvant and pod sealant.

Companion Gold is the perfect partner for glyphosate and can also be used as a pod sealant in oilseed rape and legumes.

This unique, patented multifunctional adjuvant contains a complex blend of drift reducing polyacrylamide polymers, pH buffers, water conditioners, anti foam and humectants.

The Companion Gold formulation does not contain tallow amines and its use in crops is supported by extensive field trials, laboratory studies and GLP (Good Laboratory Practice) residue analysis to confirm efficacy.

Water			Spray drift	Foliar		Harvest
pH buffer	Water condition	Anti foam	Drift control	Humectant	Sticker / Rainfastness	Pod sealant
✓	✓	✓	✓	✓	✓	✓

Companion Gold is the perfect partner for all formulations of glyphosate and can be used alone as a pod sealant.

Pack size	5 litre standard
Dose rate	0.25-0.5%
Examples of tank mix partners	<ul style="list-style-type: none"> • Glyphosate • Glyphosate + 2,4-D • Carfentrazone

Companion Gold improves glyphosate efficacy

Bromus sterilis control 20 D.A.T Oxford, UK - hard water area

Untreated

Glyphosate

Glyphosate + X-Change 0.25%

Glyphosate + Companion Gold 0.25%

Pod shatter losses in oilseed rape can be as high as 25%

- Reducing yield
- Increasing the number of volunteers in next crop

Companion Gold reduces pod shatter losses at harvest
