

Plant and fruit production solutions

growing through
innovation

Bato Plastics B.V.
develops and produces
tailored plant propagation
products for the
horticultural market.
By working closely with
growers and advisors,
Bato utilises the latest
manufacturing techniques
to provide high quality
professional products.

In the UK, Bato together
with Agrovista, have
designed and developed
a range of products
specifically for the soft
fruit industry.

Botanicoir®

*Agrovista's high-quality
Botanicoir substrate is
available as blocks to
rehydrate and
fill any container
in the professional
Bato range.*

Plant propagation

The popularity of the 'tray plant' has
seen the evolution of the Bato range of
specifically designed trays.
