

L-CBF **TERRA FED**

**STIMULATE
SOIL
BIOLOGY**

What does it do?

- Stimulates soil microbial activity, leading to better nutrient cycling and utilisation.
- Enhances root development and supports vigorous early crop establishment.
- Improves overall nutrient use efficiency of N, P, K as well as secondary nutrients and trace elements.

Application

Typical application rates are up to 40l/ha; with specific application rates based on crop and soil type.

For information regarding specific application rates, application methods, and mixing, consult with your Agrovista agronomist.

How does it do it?

The filtered molasses in L-CBF TERRA FED™ supplies simple sugars and microbial growth factors that help stimulate soil biology.

This activity supports nutrient release and uptake while enhancing soil structure and root zone health. Its consistent formulation allows easy application through any type of sprayer nozzles and liquid fitted planters.

By boosting microbial activity and improving nutrient cycling, the product encourages stronger root development, healthier plants, and improved overall crop performance.

Features

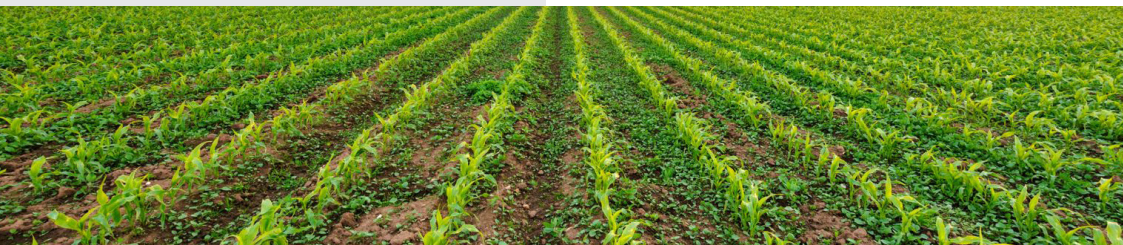

- Soil Association approved organic carbon fertiliser
- Rich source of sugars to stimulate microbial life
- Enhances root development and soil health
- Water miscible, allowing it to be applied through any type of sprayer nozzles and liquid fitted planters

Benefits

- Improved nutrient availability and use efficiency
- Enhanced root growth and crop resilience
- Tank mixes with most liquid fertilisers
- Supports organic farming systems
- Promotes healthier soils and stronger crops
- Versatile application options

Analysis

Analysis	(w/w)
Potassium Oxide soluble in water	2.0 %
Potassium	1.6 %
Sulphur (S)	0.2 %
Specific Gravity	1.3

Approved for use as an organic carbon fertiliser by the Soil Association, it's suitable for growers requiring organically certified inputs.

It promotes more efficient nutrient uptake, supports vigorous root growth, and strengthens plant cell walls for better natural defence against disease and pests.

L-CBF TERRA FED™ is an organic liquid fertiliser solution enriched with molasses, providing a high-quality carbon source to stimulate soil biology and enhance root development.
